Central
by LogMeIn

Did You Know? LogMeIn Central's Security Module Goes Hand in Hand with our Automation and Insight Modules

Our 3 focused functionality modules are built to complement each other, allowing you to consolidate your IT toolkit. Gain better control, improve productivity, and save time/resources by automating your environment.

Bring remote access, patching, antivirus, alerting, automated task management, advanced reporting, and more into a single solution. Having the option to consolidate your IT toolkit and bring it all under one roof allows you to improve your visibility and control, decrease the headache of managing multiple contracts and budget allocations, and ultimately saves you a lot of time and money.

Start with the base: Fast, Secure HD Remote Access
Enable your employees to work from home instantly with one click access to their work computers from any desktop, laptop, tablet, or mobile device. Ensure IT teams maintain control of their endpoint infrastructure with the ability to organize groups of computers, manage users, and more.

+

Then add custom modules and bring proactive IT Support full circle:

Automation Module
Bring Business Productivity to the Next Level

Security Module
Take Control and Mitigate Risk of Cyber Threats

Insight Module
Gain better Visibility

Security
Keep your endpoint infra-structure secure with critical patch management, application updates, and LogMeIn Antivirus powered by Bitdefender

Automation
Automate routine IT tasks to increase productivity and optimize resource allocation through One2Many, advanced scripting, proactive alerts, and more.

Insight
Keep a constant pulse on your endpoint infrastructure with asset management, pro-active alerts, computer audit and inventory, and more.

What our customers are saying: "*Whether you're a large corporation or a small company, Central can help you keep your most essential machines up and running. It lets us do everything we need to do in one place. It's a phenomenal product.*"
Bob Arena, Manager, Direct Sales Desktop Support, ARAMARK
